

ISIPTA'15

9th International Symposium on Imprecise Probability: Theories and Applications
20-24 July 2015, Pescara, Italy

<http://www.sipta.org/isipta15>

Important Dates

30 Jan 2015 - Paper abstracts & preliminary papers due
13 Feb 2015 - Review-ready papers due
31 Mar 2015 - Conference hotel pre-reservation deadline
08 Apr 2015- Paper notification
17 Apr 2015- Poster-only abstracts due
06 May 2015 - Poster-only notification
29 May 2015 - Early-bird registration deadline (€350 full; €200 student)

Scope & Symposium Format

ISIPTA is the primary international forum to present and discuss new results related to imprecise probability. We welcome both theoretical and applied original contributions. In this edition, we especially welcome papers connecting imprecise probabilities with related research in fields such as economics, philosophy, sociology, and engineering. There will be no parallel sessions. Each paper that is accepted is presented both

- in a plenary session, meant for a short introduction and a sketch of the context and relevance; and
- in a poster session, where ample time is given for in-depth explanation and discussion.

The poster-only track provides a second, free format presentation option. It is also open for preliminary results, challenges, etc.

New: non-proceedings papers

To adapt to different publication cultures in different fields, we introduce a new option: the non-proceeding papers. Authors may request that their contribution is not published in the proceedings in case this precludes later publication of an expanded journal version. The PC Board will decide on a case-by-case basis. If accepted, a one-page abstract will be published in the proceedings, and the paper must be freely available online (e.g., as a working paper).

Confirmed Invited Speakers

Massimo Marinacci,
AXA-Bocconi Chair in Risk
Department of Decision Sciences, Bocconi University,
Milan, Italy

Itzhak Gilboa,
Professor of Economics and Decision Sciences
Eitan Berglas School of Economics, Tel-Aviv University,
Israel & HEC, Paris, France

Special Issue

After the conference, a special issue with a selection of the accepted papers will be published in an expanded version in the International Journal of Approximate Reasoning.

Steering Committee

T. Augustin (LMU München, Germany) + PC Board
G. de Cooman (Ghent University, Belgium)
S. Doria (University G. d'Annunzio, Italy) + Local Organization
E. Miranda (University of Oviedo, Spain) + PC Board
E. Quaeghebeur (CWI, Amsterdam, Netherlands) + PC Board
T. Seidenfeld (Carnegie Mellon University, USA)
